PROJECTS

A Detailed Analysis on Coal Bed Water and Water near Coal Mine

This project was done during November,2015-Feburary,2016.This was a study on contamination in water bodies in and near coal mines(at Dhanbad discrict,the Coal Captial of India) and the coal bed water.This project took me and my team to 23rd National Science Congress at Chandigarh,where we recieved a certification of A for it.

Designing a website for your resume

This project was done in November,2017.I created this website with only use of HTML5,CSS3,JavaScript.This website is the end product.
